

PHISHING ATTACKS.

Think before you click!

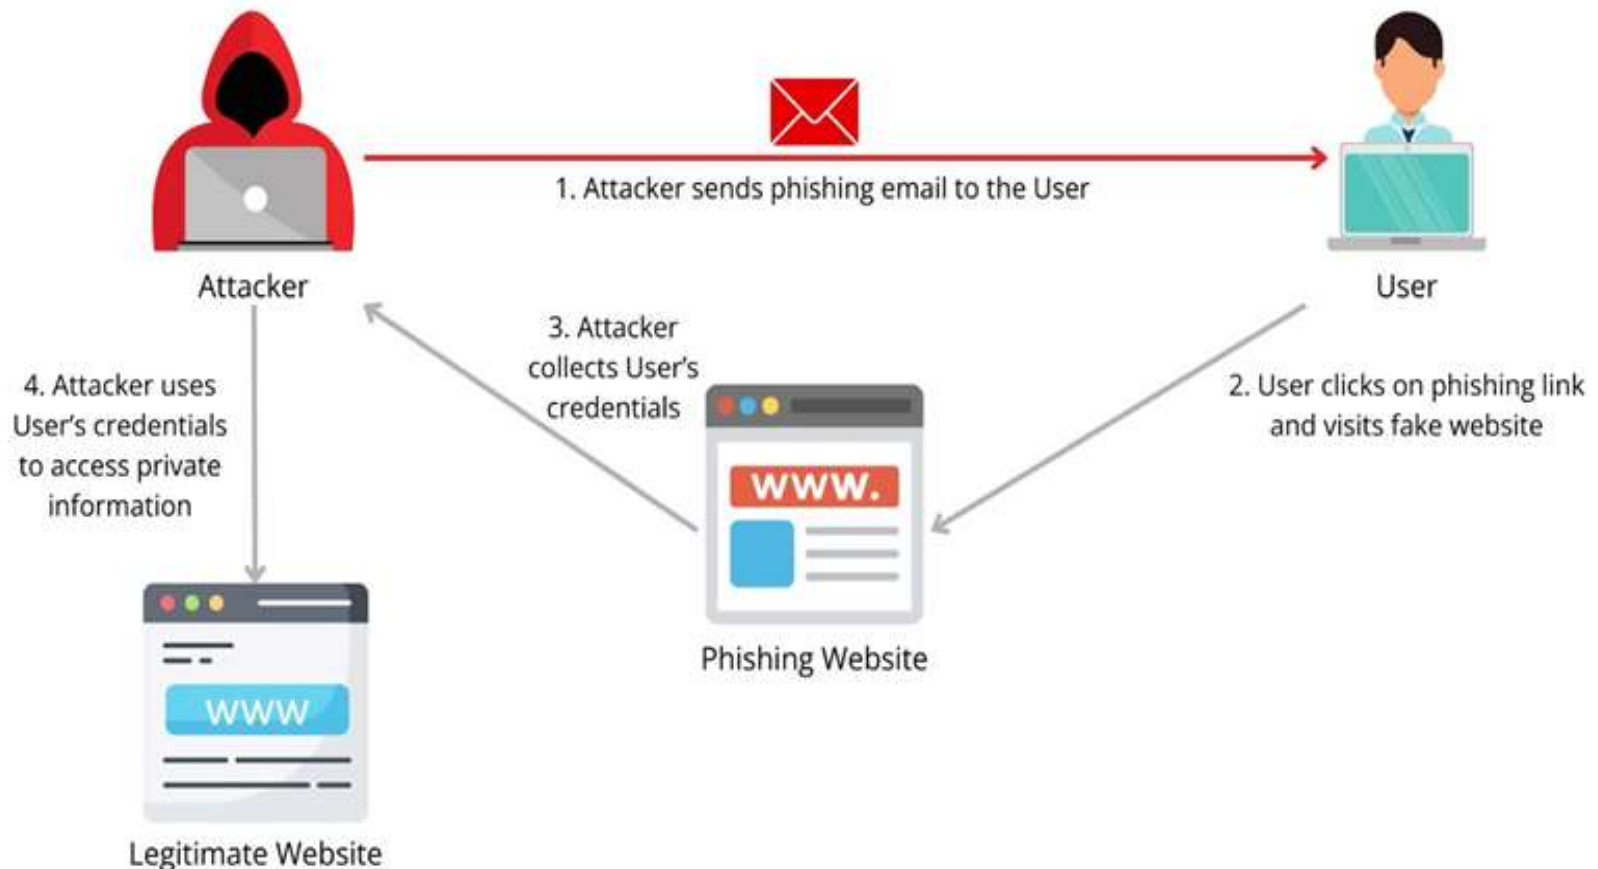

Presented by – Arpita Shikhare

WHAT IS PHISHING?

Phishing is the act of pretending to be someone, or something, to get information not usually available.

People can be gullible and curious & click on things they shouldn't – often a link will direct to a fake login page in an attempt to steal credentials.

LEARN TO SPOT PHISHING EMAILS

Email is requesting an action with urgency

Urgent duty

External

Inbox x

Phishing emails will pretend to be someone. However, will often use an incorrect email address

?

Pretend Person <ceo1283812@email.com>

to me

No first name
personalization
& poor grammar

Are you available ?

I have a request for you to handle immediately. Kindly confirm your availability. Keep a close update.

PRACTICES TO STAY SAFE

Verify the sender's identity before opening emails or messages.

Do not click suspicious links or download unknown attachments.

Check website URLs carefully for spelling mistakes or fake domains.

Never share passwords, OTPs, or personal information through email or messages.

Enable Multi-Factor Authentication (MFA/2FA) for added security.

Keep software and antivirus updated to protect against threats.

Be cautious of urgent or threatening messages that pressure immediate action.

Report phishing emails to your organization or email provider.

REAL-WORLD EXAMPLES OF PHISHING ATTACKS

1. Students receive emails promising scholarships but asking for personal information or login credentials.
2. An email claiming your bank account is locked asks you to click a link and verify your credentials.
3. A fake delivery message says your package is delayed and requests payment details.

Interactive Quiz

You receive an email saying: "Your bank account will be suspended within 24 hours. Click here and enter your login credentials to keep your account active."

What is the biggest warning sign?

The email uses your name

The message creates urgency and asks for credentials

The email contains a bank logo

The email is about your account
